

Installing Zoom (6 steps)

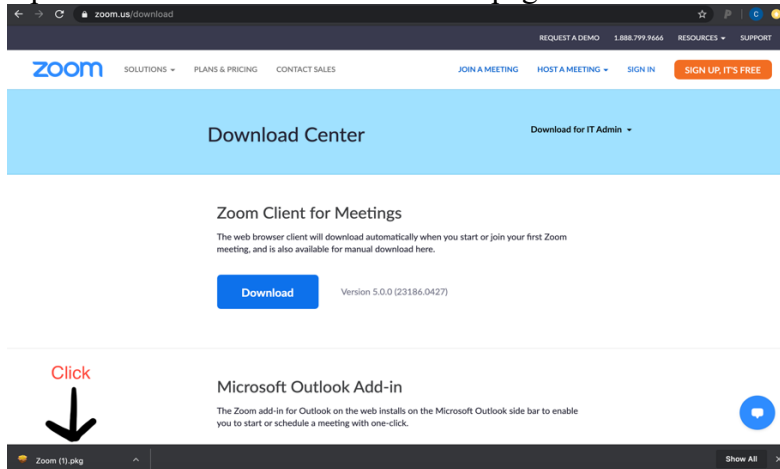

Show on Mac ios, the layout may look different for other computers

Note: The process may take a few minutes so we recommend giving yourself time to do this prior to the class start time.

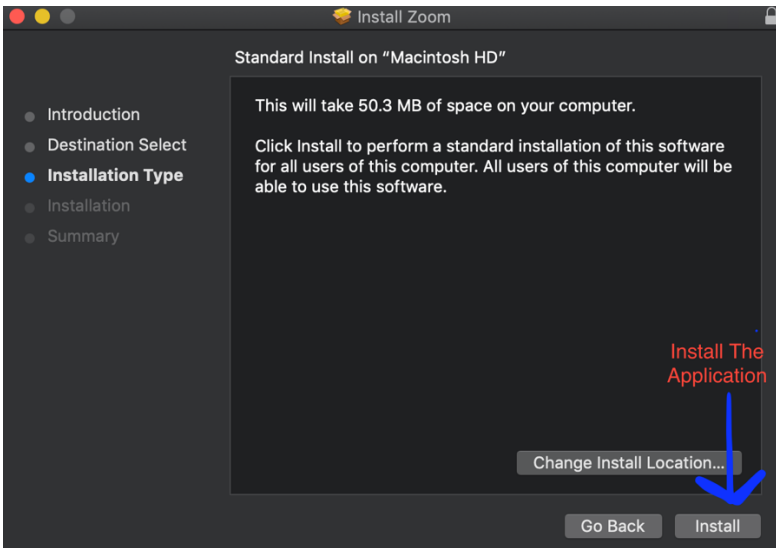

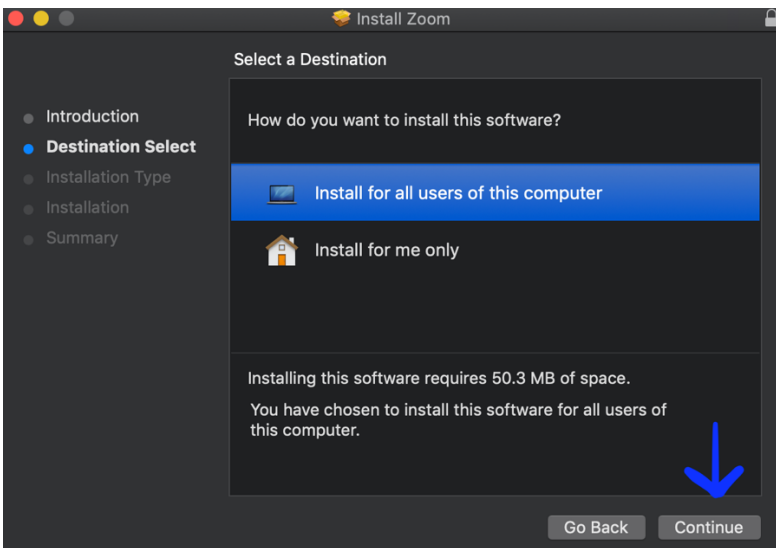

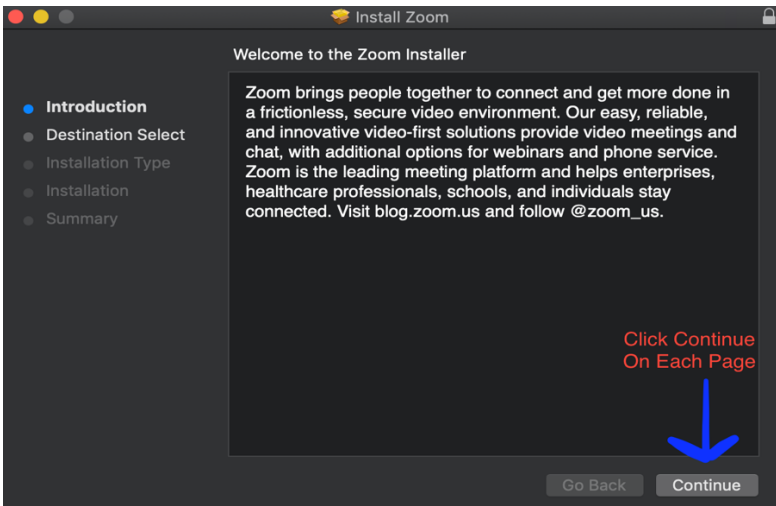

1. Go to <https://zoom.us/download>
2. Click the first blue “Download” button

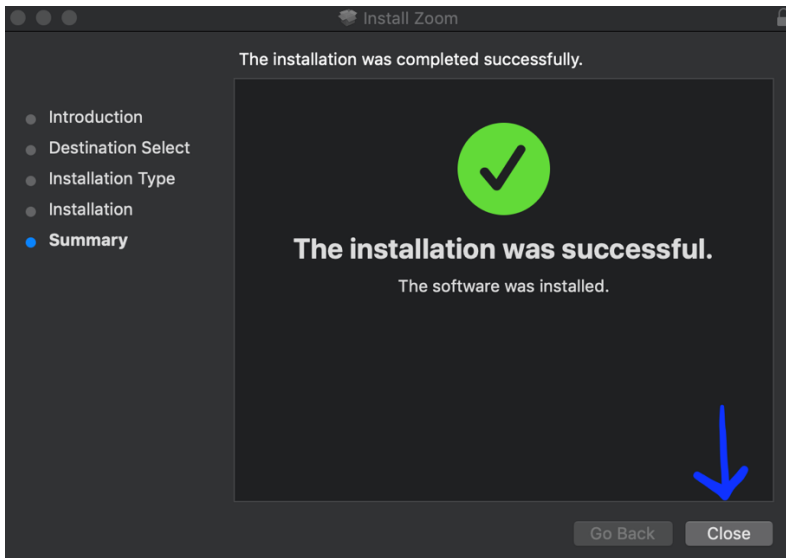

3. Open the file at the bottom left of the page

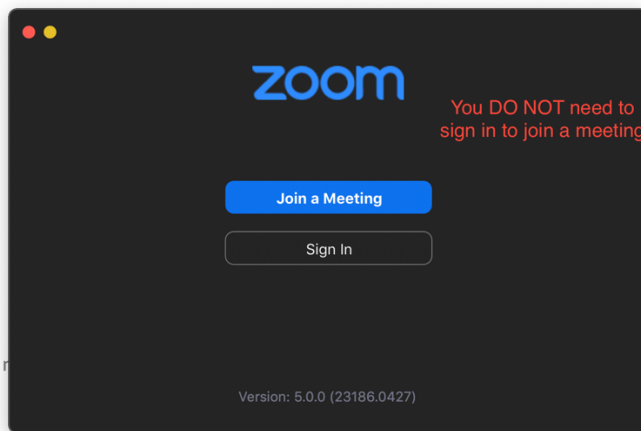

4. Accept and install the application

5. Close the download screen, the application has been installed

6. If directed to the Zoom “Sign On” screen you do not need to make a profile to use Zoom, but you can if you would like

If r

& run Zoom.
